Product description and key attributes

The PPS Mutual Super Fund is designed for consumers who:

- Are eligible to practise (or have been eligible to practise) in a professional occupation recognised by PPSM
- PPS Mutual Super Fund provides the option of three insurance benefits:
 - Life insurance – providing a lump sum payment in the event of the client’s death or being diagnosed as having less than 2 years to live (terminally ill)
 - Total & Permanent Disability insurance – providing a lump sum payment in the event the client, due to illness or injury, is unlikely to ever engage in any occupation they are suited to by education, training or experience.
 - Income Protection insurance – providing a monthly benefit payment for a specified period while the client, due to illness or injury, is unable to work in their own occupation (which after two years on claim may change to any occupation they are suited to).
- Acknowledge and understand that:
 - If premiums are not paid when due, the policy may lapse in which case the policyowner would no longer be covered and cannot make a claim
 - Premiums may change over time
 - This is a fully underwritten product. The underwriting process may require additional medical information, including a medical report from the life to be insured’s treating doctor(s) and/or medical screening tests. The underwriting process could result in an increase in the price of the product, limitations to the sum insured, special terms and conditions applied to cover, or declining cover. This product is not appropriate for consumers who are unwilling or unable to participate in the underwriting process and related medical requirements.

Objectives, financial situation, and needs

The table below sets out the class of consumers that each insurance option within PPS Mutual Super Fund has been designed for.

Insurance Option 2 - Total & Permanent Disability	<p>The consumer has (or envisages that in future they will or may have) outstanding financial commitments that will not be satisfied should they be incapable of engaging in [their own/any] meaningful gainful employment [and/or independent living] due to total and permanent disablement. These financial or financial-in-kind commitments include, but are not limited to mortgage and other debt servicing costs, income or revenue replacement, medical and rehabilitation costs, transportation and accommodation costs, personal care, palliative care, business commitments and/or business succession funding costs</p>
Insurance Option 3 - Income Protection	<p>The consumer has (or envisages that in future they will or may have) a need to replace their income in the event that they are unable to earn their income (or are only able to earn a lower income) due to an event which causes them to be unable to earn their pre-disability income, whether due to illness or injury.</p>

Consistency between target market and the product

Broadly, the target market comprises of consumers who have financial needs in the event of death, terminal illness or disablement. The product is designed to meet these needs.

The product is for those who have a capacity to pay potentially variable premiums on an ongoing basis, and to pay these via a partial rollover from another complying superannuation fund.

It is therefore likely to meet the needs, or go towards meeting the needs, of those in the target market.

Key risks of holding insurance through Super

There are risks the consumer must consider before deciding to hold insurance through superannuation, including:

- In addition to the terms and conditions of their PPSM Professionals Choice Plan, insurance benefits through superannuation are also subject to superannuation law and the Trust Deed and Rules of the OneSuper Fund (ABN 43 905 581 638). If there is any inconsistency between the terms of the consumer's PPSM Professionals Choice Plan and the Trust Rules, the Trust Rules prevail.
- If the consumer changes their mind about holding insurance through the PPSM Fund (during the cooling off period) - they will not usually be able to obtain a refund of premiums in cash (the refund will usually have to be paid to another superannuation entity).
- A benefit paid from the PPSM Fund is a superannuation benefit for tax purposes. Depending on the consumer's tax circumstances, it may be subject to more tax than would otherwise apply if the benefit was paid from the same insurance held outside of superannuation.
- Where the consumer chooses to pay premiums by rollover from another superannuation fund, their retirement savings will be reduced so that they may have less available to them on retirement than otherwise may have been the case.
- Taxation or superannuation law may change in the future, Altering the suitability of holding insurance in superannuation.
